

# WALK WITH GOD

This series is a reflection of the artist's personal journey in coming to Christ after exploring different spiritual paths. It's a story of realization, Truth, and continual progression told through visuals and concepts portrayed on the canvas. This series is a deeply personal expression. The hope is that it provides some light in today's world, contributes to the grace, love, and kindness we all hope to see in the world, and inspires reflection and gratitude.

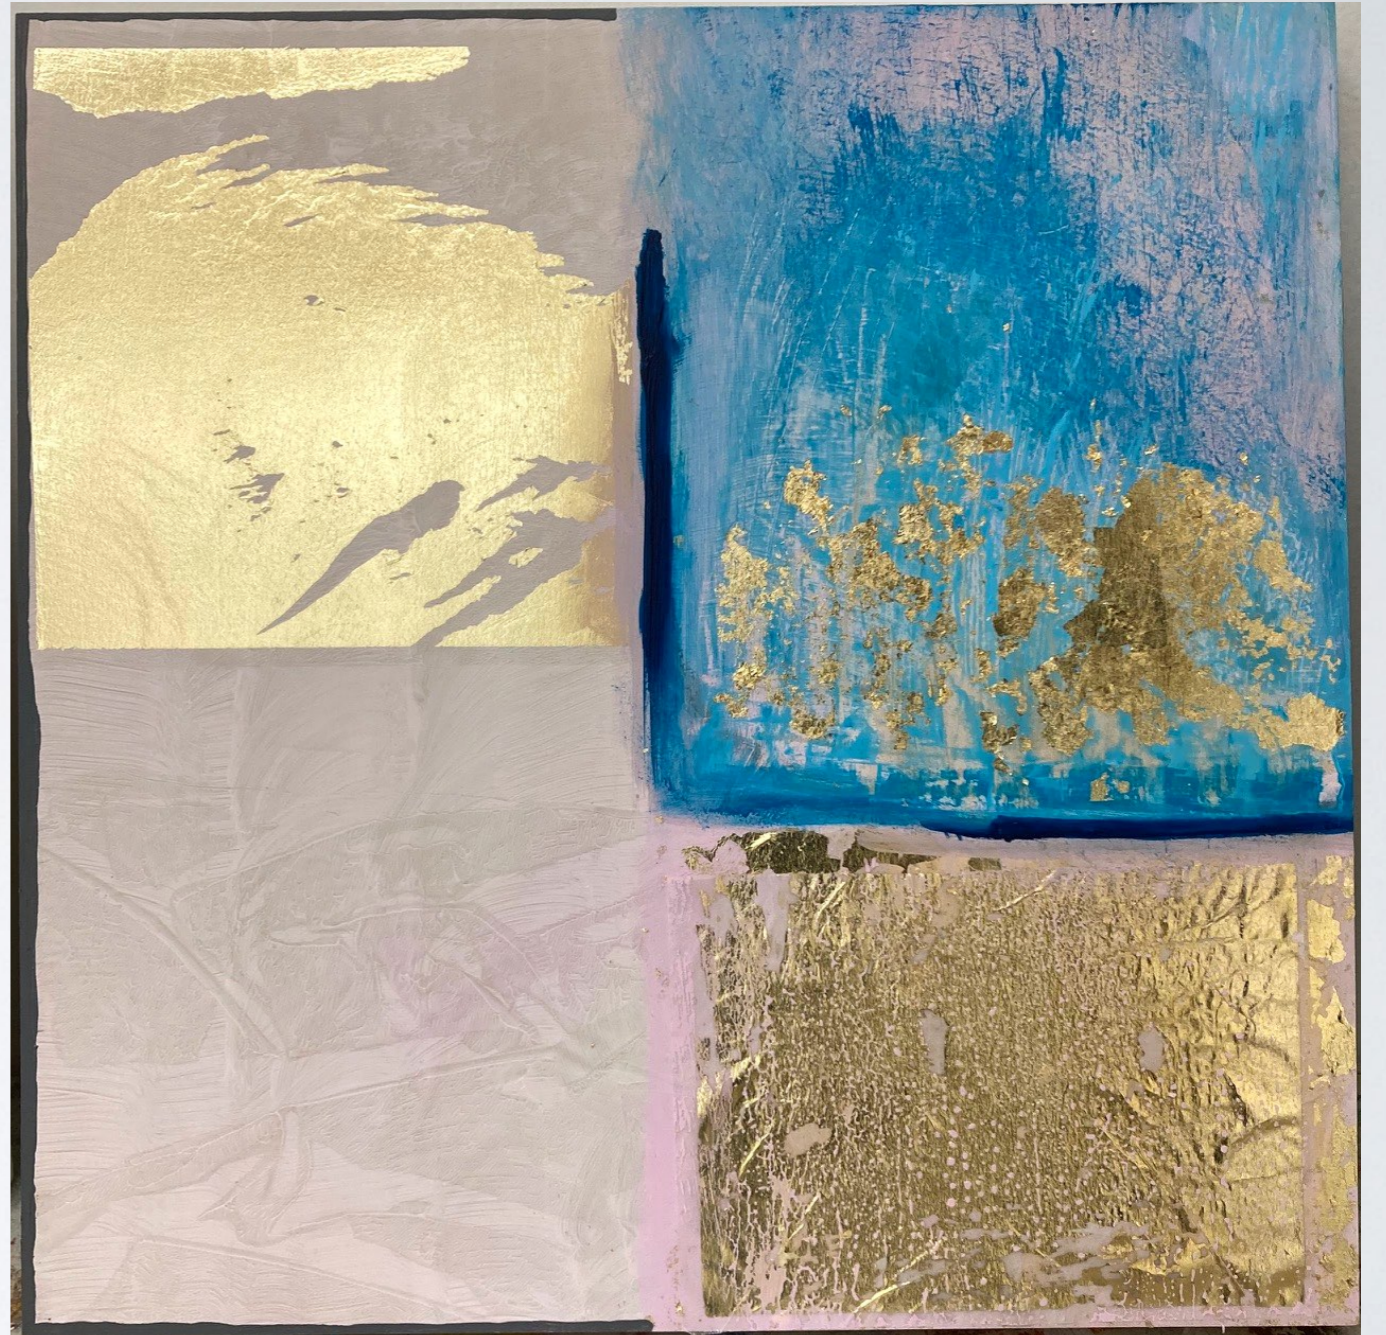

Aparna is an emerging artist, self taught, who works with acrylics, oils, mixed media. She aims to paint to invite others to reflect on deeper truths within themselves, inspire them to open a space of creativity within, and find connection to our Creator.

She completed this series at Grand Marais Art Colony. To see more of her artwork you can find her on Instagram: <https://www.instagram.com/a.parnz/>
